

ProFund builds and invests in AI-native companies

Lead at seed. Co-invest Series A.

PRE-MARKETING PHASE

This document is a pre-marketing communication within the meaning of Article 30a of Directive 2011/61/EU (AIFMD). The fund is not yet established and no units may be subscribed at this stage. Addressed to professional investors only.

IN ONE SENTENCE

A EUR 35M early-stage fund acting as Lead investor at seed stage and co-investing in Series A.

Targeting domain-specific AI harness with self-improving loops built by highly technical AI-native teams.

Powered by an in-house AI platform that reads 24/7 weak signals in emerging categories and detects founders matching our thesis before they become obvious to the category.

	TARGET	BASE CASE	BENCHMARK
Gross exit value on EUR 35M deployed	EUR 98.6M	EUR 65M - 75M	-
Net IRR	26%	15%	12% - 18%
Net DPI	~2.8x	1.9x - 2.1x	-
Scout portfolio MOIC	2.5x	-	-
Core portfolio MOIC	3.1x	-	-

STRATEGY

Lead at seed. Co-invest Series A. Targeting domain-specific AI harness with self-improving loops, built by highly technical AI-native teams.

Our in-house AI Venture Platform processes automatically hundreds of startups and founders daily to detect the ones matching our thesis. Human time is reserved for the top 1 percent that get a CALL recommendation by Stan, our AI Principal. The reason every other signal was discarded is written down. Thesis parameters that drive our sourcing, investment analysis and due diligence efforts are recalibrated every day based on our feedback. We judge every day how Stan, our AI Principal, is sourcing and qualifying investment opportunities.

The same platform already books dozens of meetings for our portfolio companies Proplace and Maximum Insurance.

We deliver a standard investment memo and financial model for every company matching our thesis, and a highly detailed investment memo, AI-powered due diligence and human conviction statement for companies we want to invest in.

Fund administration fully externalised.

5 percent GP commitment on management fees.

HOW WE SOURCE

1/ Physical network and human interactions with top founders.

2/ In-house sourcing platform, gathering more than 25 custom sourcing engines detecting signals such as SSL certificate registrations, Pappers legal filings, GitHub repositories, leadership at Tier 1 startups changing jobs, LinkedIn job posts, semantic search, grandes ecoles alumni networks... to which we add new custom engines every month in the form of innovative ideas or startups which made sourcing their core focus.
