

Backing Europe's next category winners.

A EUR 35M early-stage fund investing in 21 European companies. Investors and builders: we built and scaled companies first, and we extend that operating experience to investment - with a platform that reads every weak signal in an emerging category before it is obvious.

FUND CONSTRUCTION

Two-tier construction. Scout tickets buy asymmetric exposure at pre-seed, where the platform's detection lead is worth the most. Core tickets concentrate capital on validated conviction at Seed+ and Series A. The best Scout bets graduate to Core.
