

ProFund builds and invests in AI-native companies

Lead at seed. Co-invest Series A alongside a Tier 1 lead.

PRE-MARKETING PHASE

This document is a pre-marketing communication within the meaning of Article 30a of Directive 2011/61/EU (AIFMD). The fund is not yet established and no units may be subscribed at this stage. Addressed to professional investors only.

IN ONE SENTENCE

A EUR 35M early-stage fund acting as Lead investor at seed stage and co-investing in Series A alongside a Tier 1 lead. Targeting domain-specific AI harness with self-improving loops built by highly technical AI-native teams. Powered by an in-house AI platform that reads 24/7 weak signals in emerging categories and detects founders matching our thesis before they become obvious to the category.

STRATEGY

- Lead at seed. Co-invest Series A alongside a Tier 1 lead. Targeting domain-specific AI harness with self-improving loops, built by highly technical AI-native teams.
- Digital + human on one platform. Every signal is processed automatically. Human time is reserved for the top 1% (CALL). The reason every other signal was discarded is written down. Thesis parameters are recalibrated every Monday.
- The same engine already books meetings for Proplace and Maximum Insurance - two operating companies in the portfolio. Proof, not a slide.
- A full investment memo and financial model are generated automatically for every high-conviction match. Fund administration fully externalised.
- 5% GP commitment on management fees.

HOW WE SOURCE

- Physical network and human interactions with top founders.
- Digital: the latest AI tools added to our in-house sourcing platform, gathering more than 25 custom sourcing engines detecting signals such as SSL certificate registrations, Pappers legal filings, GitHub repositories, leadership at Tier 1 startups changing jobs, LinkedIn job posts, semantic search, grandes ecoles alumni networks.
